There are two important notifications in your child's Thursday folder today: the volunteer form for Spring Fling and news about our upcoming Magazine sale next week!

Next week we will be assessing our 2nd-5th graders in MAP (Measures of Academic Progress) in reading and math. We are looking for students to meet their RIT target score. Counselor Corner...Mrs. Kaiser

During the week of April 9th – 13th, I have been in grades 3 -5 with the focus on careers. In third grade, students were able to identify the academic skills necessary for workers in the six career pathways (fixing, building and technology, health, nature, creative, business and helping). Students then explained how academic skills relate to the world of work. In fourth grade, students took an interest assessment on the website <http://www.vaview.org/> Students then completed the work sheet, *A Job I am Interested in Finding Out More About...* In fifth grade, students took a more in-depth interest assessment on the website <https://www.mynextmove.org/explore/ip> Fifth grade students explored several jobs that were generated from their assessment and picked one to research. Next week I will be working with small groups.

Tips for Parents: You can visit the Sageville website and click on guidance links to explore the interest assessments that the 4th and 5th grade students took.
