November 23, 24, and 25.

Unpredictable Weather

We have been experiencing such wonderful weather, that it is hard to believe that we are almost half-way through November already. Sooner or later, our weather is going to remind us that fall IS here and colder weather is on the way. Each day our students do go outside for recess, so it is best if they come with at least an additional layer right now. If the weather gets warmer in the afternoon, a layer can always be removed. Our Iowa weather always keeps us guessing!

Band and Choir Concert

Our 5th grade students have been busy learning their new instruments, and our directors have been guiding the students through this exciting journey. On Monday, November 14th, the students will have a chance to share their talents at their first performance! The performance will be at Hempstead's Auditorium. The band students will perform at 6:00pm and the orchestra students will perform at 7:00pm. The directors have sent home specific information regarding this event. Congratulations, young musicians!

Leisure Services Interschool Volleyball Game

Bryant students who have been a part of the after-school Leisure Services volleyball program will have an opportunity to participate in an interschool volleyball game.

Where: Table Mound School 100 Tower Drive

When: Tuesday, November 15th

Time: All Bryant students should arrive at Table Mound at 3:50. The coaches anticipate that the games will conclude no later than 5:15.

If you have any questions, you can call the Park and Recreations Divisions' HOTLINE at 589-4386.

LEARN ABOUT ST MATH TONIGHT

When: Thursday, November 10

Time: 6:00-7:00 pm

The Site Council meets each month to help to provide guidance and feedback regarding the educational programming here at Bryant. The Site Council reviews student achievement data for our school and provides Ms. McCarron with parental insight to all that happens here.

Since we started a new component within our math instruction this school year, Mrs. Bridget Hamilton, the DCSD math coordinator, will be coming to Bryant to provide information to the Site Council regarding this new math program. She will share how this program supports our current math practices and helps our students to develop conceptual understanding in math. This program is utilized in kindergarten through fifth grades. ***For this meeting, we welcome any parents who might want to learn more about ST Math to join us.*** If you would like to learn about ST Math, please consider joining us for this session.

4TH GRADE SERVICIE PROJECT FOR THE HUMANE SOCIETY

Our 4th grade students invite all of Bryant families to support the Dubuque Humane Society. The students will be gathering pet supplies and monetary donations for the Humane Society from November 11th through November 21st. This service projects teaches students the power of their work to make our community a better place for ALL of us. Please consider supporting their service project.

As we bring a close to this election and all that has come with it, the follow quote seems appropriate. May each of us face each new day with an open mind.

Education's purpose is to replace an empty mind with an open one.
-Malcolm S. Forbes
